More on Zagreb and Croatia

City Zagreb

Zagreb, capital of the Republic of Croatia, has culture, arts, music, architecture, gastronomy and all the other things that make a quality capital city. It's also called a city of museums as there are more of them per square foot than any other city in the world. This small metropolis is made for strolling the streets, drinking coffee in the permanently full cafes, popping into museums and galleries, and enjoying the theatres, concerts and cinema.
