TO COMMUNICATE

Marketing is no longer about the stuff that you make, but the stories you tell.

With an innovative approach to marketing we have set a standard of excellence that starts with good communication and gives our clients additional value. We continually work on creating unique content for national television, our website, social media platforms, magazines and newspapers.

TO DEVELOP

...650 participants, 60 lecturers, 630 hours of education, 28 modules, 60 workshops, 55 soft skills topics.

Bagatin Academy is an educational project designed to develop the soft skills of medical professionals, raise the level of service in our clinic and give our clients added value. We aim to strengthen our healthcare system and give our doctors the broadness they need to make even better use of their medical expertise.

Out of 500 physicians who participate in this educational project annually, our vision for 2022 is to see this number rise to 50,000 medical professionals who will attend at least one lecture on soft skills within our educational center.

Great efforts are being made towards implementing soft skills learning at state universities as well. We are a learning center for the world's most famous brands: Allergan, Asclepion, Canfiled, Invisalign, Merz, Planmeca, Reviderm and Straumann. Apart from working with state-of-the-art technology ourselves, we are proud to share our knowledge with other medical professionals in Croatia and the region. Knowledge shared is knowledge multiplied!

TO EXPERIENCE

Experience Zagreb with all the senses!

The city of Zagreb, as well as the entire country of Croatia, abounds in historical and cultural heritage, impressive architecture and delicious cuisine. Zagreb is also a city with the most museums per square meters and was voted Best Christmas Market in Europe three years in a row.

The best view of the city can be seen from the 10th floor of our Clinic, and getting to know Zagreb and all it has to offer will surely provide an unforgettable experience for our clients and their families.
